### WORK EXPERIENCE

#### JOB POSITION

Takin Solutions // 2023 Sep -2023 Nov

#### *Full-Stack Developer*

As a Full Stack Developer, I excel in crafting robust and scalable solutions across the entire technology stack. Proficient in languages such as JavaScript, HTML, CSS, and Python, I bring a wealth of expertise in database management, leveraging technologies like PostgreSQL, MySQL, and ensuring seamless integration with AWS infrastructure. My proficiency extends to Linux environments, and my commitment to collaborative development is evident through my active engagement on GitHub. Additionally, I play a pivotal role in technical writing within the company, ensuring clear communication and documentation of complex technical concepts.

- **Web Design and UI/UX:** Proficient in creating visually appealing and user-friendly interfaces, ensuring a positive and intuitive user experience.
- **Programming Languages:** Mastery of JavaScript, HTML, CSS, and Python for versatile and dynamic web application development.
- **Database Management:** Extensive experience in database design and management, utilizing PostgreSQL and MySQL to ensure optimal data organization and retrieval.
- **Cloud Infrastructure:** Adept at leveraging AWS services for scalable and efficient cloud-based solutions, contributing to seamless deployment and maintenance.
- **Linux Environments:** Proficient in working with Linux systems, ensuring smooth application deployment and effective system administration.
- **Version Control:** Active collaboration on GitHub, showcasing a commitment to best practices in version control and collaborative development workflows.
- **Technical Writing:** Key contributor to technical documentation within the company, ensuring clear and comprehensive communication of complex technical concepts for various stakeholders.
